

Symfony Catalunya 2016

Maybe another international Symfony Event
July 22-23, Barcelona

About the event

Welcome to Barcelona.
Welcome to Symfony Catalunya.

We created this event by and for the Symfony community and its developers in the magic center of our city: Barcelona.

We're very proud to announce its first (but not the last one) edition.

Are you ready for that?
Would you like to know what we have in mind?

About the event

We want to do something useful, really useful.

Our speakers are chosen because their communication skills, and our talks because of their real impact to the attendees.

Not many talks, but new and good ones. And community... a lot of community. This is our goal.

The event is entirely in **english**, expecting people from over the world.

Being our sponsor will increase your international visibility in the Symfony ecosystem.

About the organizers

We have experience organizing events like this:

- Marc Morera, organizer of the Symfony Barcelona UG
- Victor Guardiola, core member of the PHP Barcelona conference
- Aldo Chiecchia, CTO at AntaiVB

Symfony Barcelona has become a non-profit organization this year.

About the sponsors

What we want from a sponsor?

This is a community-driven event, so we need some money to pay the venue, the speakers package and some commodities during the conference.

We want you to help as much as you can spreading the word about the event. Being our sponsor means that you believe in our work and you want this event success.

Let's work together :)

About the sponsors

What we offer to our sponsors?

We offer you our maximum effort to make everybody know you, so we will include and show your logo in our website and during the conference.

Before the conference we will offer you the possibility to write about the great way you use Symfony. Your use case. We will publish this into a post in our @Medium channel.

Apart of that, we will give you one free ticket for the conference, and a stand, where you'll be able to show the world who are you.

About the sponsors

And we only ask...

300 euros + VAT

Is not that much, right? Be brave and be by our side making history in this event. We will not find enough words to thank you for your invaluable help :)

Thanks!
